PROFESSIONAL SUMMARY

Creative Web Designer and Front-End Developer with practical experience designing and developing responsive, user-friendly web interfaces using HTML5, CSS3, and JavaScript. Experienced in translating ideas into structured layouts, interactive web experiences, and mobile-responsive interfaces through independently designed and deployed web projects. Experienced with Visual Studio Code, Git, GitHub Pages, Adobe Photoshop, and responsive web design.

CORE SKILLS

Web Design & Front-End Development

- HTML5
- CSS3
- JavaScript
- Responsive Web Design
- UI Layout Design
- Interactive Web Interfaces

Design & Visual Skills

- Layout Design
- Digital Interface Design

- Architectural Visualization
- Attention to Detail

Development Tools

- Visual Studio Code (VS Code)
- GitHub
- Version Control
- Web Deployment

Communication & Professional Skills

- Clear Written & Verbal Communication
- Time Management
- Problem Solving
- Collaborative Working
- Attention to Detail

WEB DESIGN & DEVELOPMENT PROJECTS

Digital School Communication System

HTML5 | CSS3 | JavaScript | Responsive Design | GitHub Pages

- Implemented responsive CSS layouts to support viewing across mobile phones, tablets, and desktop screens.
- Designed, developed, tested, and deployed the project independently.

Live Demo: <https://bigj11514-droid.github.io/Digital-Communication-System-demo/>

Interactive Digital Learning Platform

HTML5 | CSS3 | JavaScript

- Designed and developed an interactive educational web application containing quizzes and structured learning resources.
- Created intuitive interface elements and organized content to make learning materials easier

to navigate.

- Designed and deployed the application as a functional live web project.
